

# Hi-Ploughs

Global Marine's range of Hi-Ploughs® meet the demand for deeper burial, and represent the latest in deep-water plough technology. Each Hi-Plough has 500kW of jetting power to reduce the active tow tensions and can be fitted with either a 2m plough share or a 3.25m injector share. Introduced in 2001, the Hi-Ploughs® have won a strong track record for achieving deep cable burial protection.

## Key Features

- Adjustable depth setting by skid height
- Repeater burial by share flaps
- 1.5m minimum cable bend radius - STD can be increased to suit cable type
- Max cable/product diameter: 150mm
- Max repeater diameter: 380mm

<b>Depth rating:</b>	Up to - 2000m depending on share used
<b>Weight:</b>	24 tonnes (in air)
<b>Length:</b>	9.8m
<b>Width:</b>	5.6m
<b>Height:</b>	5.0m with plough share, 5.6m with 3.25 injector share
<b>Burial depth:</b>	Various; depending on share used
<b>Burial speed:</b>	Typically 0.6-1km/hour depending on seabed
<b>Seabed type:</b>	From very soft mud through to soft clays and stiff sands

All performance figures quoted are nominal, actual performance is dependent on environmental conditions prevailing at the time of operations.
